# Meet ELLA

What can ELLA do currently (Oct 2025)

- Give information about ships, orderbook
- Information about service companies, shipyards, etc.
- Create news about casualties, accidents and ship orders
- Collect Orders about ships
- Recommend shipyards for repair
- Process PDFs and build your own knowledge base and chatbots
- Port Distances and Vessel Schedules
- Collect PSC Data
- Read Emails and Extract Data out of emails and PDFs
- Ship Values

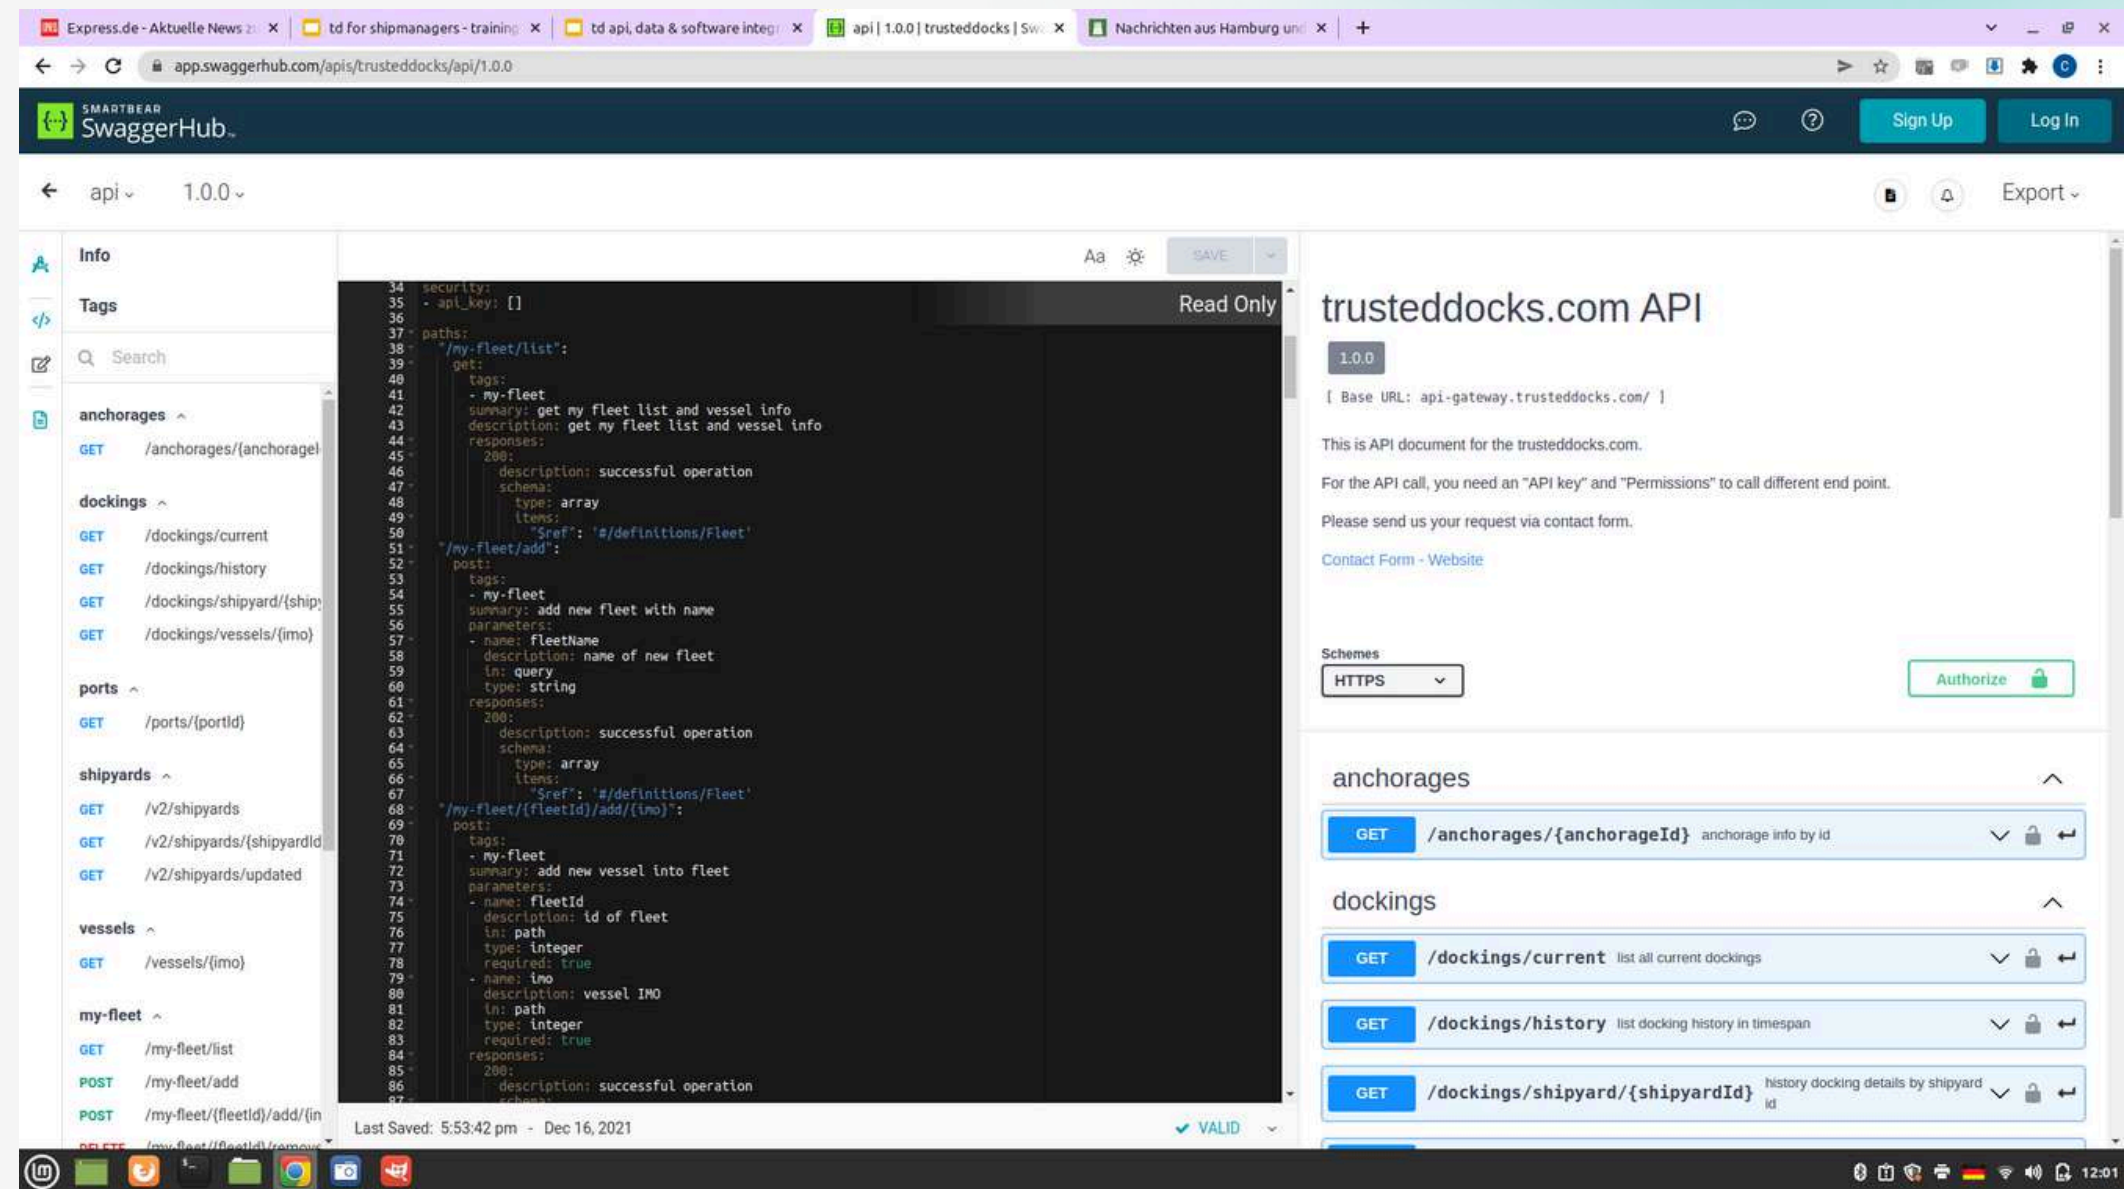

# API

All Displayed DATA and  
Functions are available via  
API

# MARITIME CRM

FULLY FEATURED  
MARTIME CRM powered  
by trusteddocks.com

## What can you do with it?

# Case 1: SHIPYARD

Shipyard base in West Africa scans ETAs and Anchorage activities on a daily base to approach Shipmanager from defined countries to offer free dockspace and fill their drydocks.

[www.trusteddocks.com](http://www.trusteddocks.com)

ETA: Sailingarea + Anchorages + Ports  
Vessel Database

Frequent: Daily Website usage

CRM: Excel

What can you do with it?

# Case 2: EQUIPMENT MANUFACTURER

Rubber Seal manufacturer monitors fleet from their existing clients and installations to forecast and approach clients for renewal of seals.

Trusteddocks api (shipyard visits and forecasts)

Trusteddocks Website

Product Fleet Setup

Frequent: Daily download

CRM: Salesforce

What can you do with it?

# Case 3: EQUIPMENT MANUFACTURER

SETUP
