

Ioannis Lantouris

Director of Business Operations at OroraTech and Managing Director of OroraTech's Greek Office

Ioannis Lantouris is Director of Business Operations at OroraTech and Managing Director of OroraTech's Greek Office, which he led its establishment in 2024, from legal registration to office setup and initial HR scaling. In his current role he oversees financial visibility, procurement control, and operational planning across OroraTech's technology and product organization.

In Greece, he led the delivery of the Greek work packages within the company's national satellite programs, helped secure funding for projects in Greece, and led proposal preparations toward the Greek Government in the aerospace domain. He also supported and guided business development activities across Greece and the MEA region.

He brings over 20 years of international experience in operations, program management, and IT service management, with prior roles at Rakuten, Vodafone Group, Capgemini, and Credit Suisse. He holds a BSc in Computer Systems and Management from the American College of Greece and is a certified PRINCE2 and Agile Practitioner.
