

Programme

Green Industry: Sustainable Solutions for Renewable Energy and Heat

Tuesday, 13th Mai 2025

Electra Palace Thessaloniki

Registration

09:30 – 10:00

Registration and welcome coffee

Welcome Remarks

10:00 – 10:20

Georgios Theodorakis

Director of Northern Greece Branche, German Hellenic Chamber of Industry and Commerce

Andreas Spyridis

President of Northern Greece Branche, German Hellenic Chamber of Industry and Commerce

Monika Frank

Consul General of the Federal Republic of Germany in Thessaloniki

Block 1: Renewable energy and heat technologies for a sustainable industry

Moderation: Zoi Kampouri, Coordinator of the Energy Group of the Federation of Industries of Greece (SBE) and Managing Director ReSight

10:20 – 12:00

The green transition of industry with a focus on heat

Carlotta Gerlach, Renewable Heat Policy and Economic Advisor
German Renewable Energy Federation

Sustainable and cost-effective process heat on demand - Solar thermal energy contracting

Martin Scheuerer, Commercial Director - Protarget AG

Minimising industrial environmental impact with power-to-heat systems

Wöltje Dunkake, Head of Sales - Schniewindt GmbH & Co. KG

Optimisation of cooling and heating supply systems to reduce operating costs

Stefan Petersen, CEO - Factor4Solutions GmbH

Energy independence through solar power generation and storage

Mona Glaewe, Internal Sales - IBC Solar

Promoting investment via the new Development Law 4887/2022 and opportunities for implementing the green transition in industry

Anastasios Zafeiridis, Dept. Head of Department for Investor's Information and Communication, Private Investment Directorate, Ministry of Interior (Sector Macedonia and Thrace)

ESCO model, a win-win total solution for the efficient energy upgrade of buildings and applications with zero CAPEX from the customer

Chrysostomos Bouras, Business Development Manager, ESCO PARTNERS S.A.

Q&A Discussion

12:00 – 12:30

Coffee break

Block 2: Advantages of Biogas Technologies for the Greek industry sector

Moderation: Zoi Baltzi, Project Manager, German Hellenic Chamber of Industry and Commerce

12:30 – 14:15	Harnessing Agricultural Biomass: Transforming Crop Residues and Agri-Food By-Products into Sustainable Energy and Biochar Nikos Damatis, Dipl. Production & Management Engineer, Secretary General of BoD, Hellenic Biomass Association HellaBiom
	Biogas and biomethane as an efficient and sustainable energy concept based on flexible technologies Michael Krafzig, Sales International - OEKOBIT GmbH
	Brokerage services between producers and buyers of biomethane and LCO₂ Henning Dicks, CEO - agriportance GmbH
	Energy systems with biogas utilization for the food industry Bijan Sadjjadi-Ortlieb, Research Group Lead, Fraunhofer Institute for Manufacturing Engineering and Automation IPA
	Combustion plants for residual gases from biogas and landfill gas treatment as well as hydrogen from biogas Roland Berger, CEO - e-flox GmbH
	Waste to value. Circular economy and sustainable energy solutions. Roman Dinslage, CEO - INTECUS GmbH
	Q&A Discussion
14:15 – 14:30	Coffee break
14:30 – 16:00	Networking Session
