Introduction - Promarin

• **Headquarter:** Erftstadt (near Cologne, Germany)

• **Founded**: 1992

Locations: 5 (Germany and the Netherlands)

• Employees: 40

Consultancy &

Project Planning

Core Business:

Custom-tailored Propellers

Complete Drive-train Solutions

CFD Cluster with 1.600 Cores

Worldwide Repair and Maintenance Service

Life Cycle Monitoring Service and Spare Parts

Custom Tailored Drive Trains for Newbuidings and Retrofits

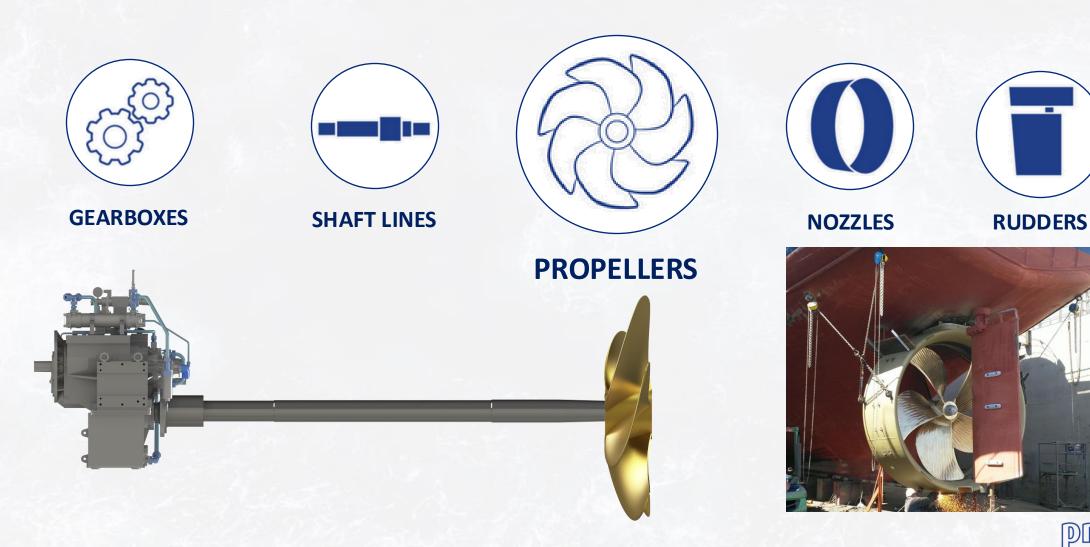

Life Cycle Monitoring
Predictive Maintenance Sollutions

Product Portfolio – Tailor-Made Drive Trains

Propellers – Our Core Expertise

• Blades: 3 - 7

• **Diameter:** 800 mm – 6500 mm (max. 8200 mm)

Design: Custom-Tailored

Propulsion Application Portfolio:

- Inland Vessels
- Workboats / Tugboats
- Coasters
- Fishing Boats
- Seagoing Vessels
- Yachting

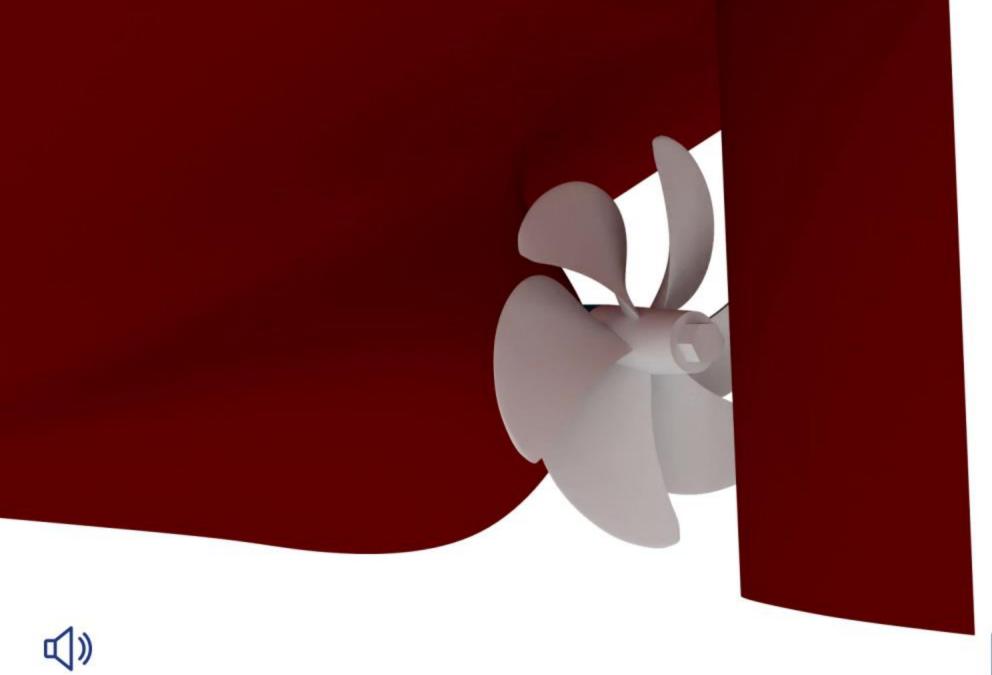

Volume: 1.500 – 1.800 Propellers / Year

Multipulsion® – Cutting-Edge Technology

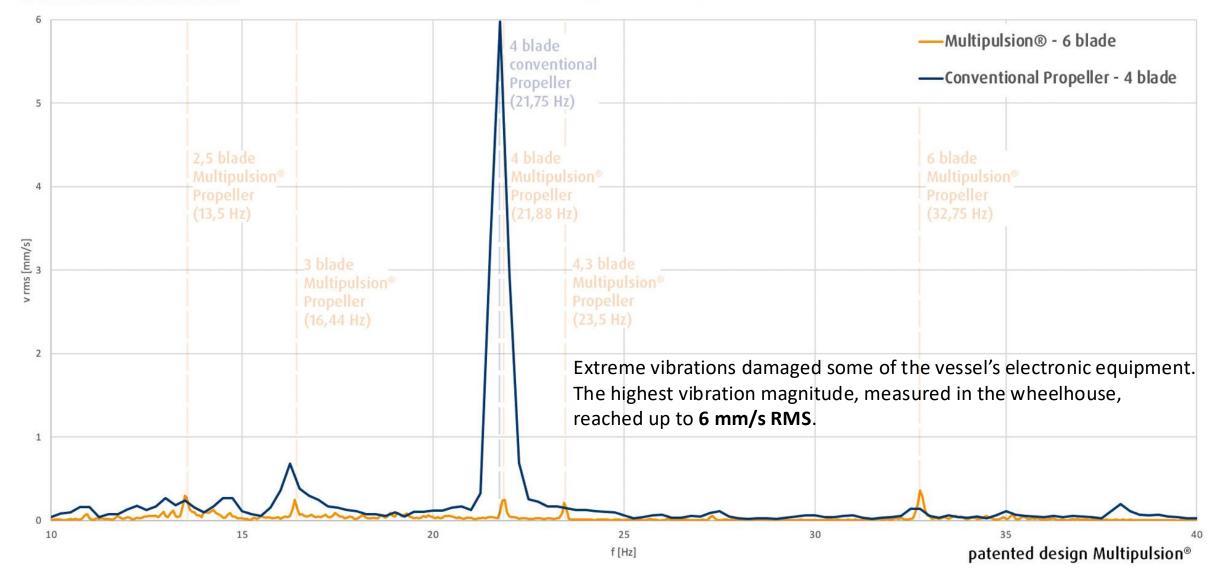

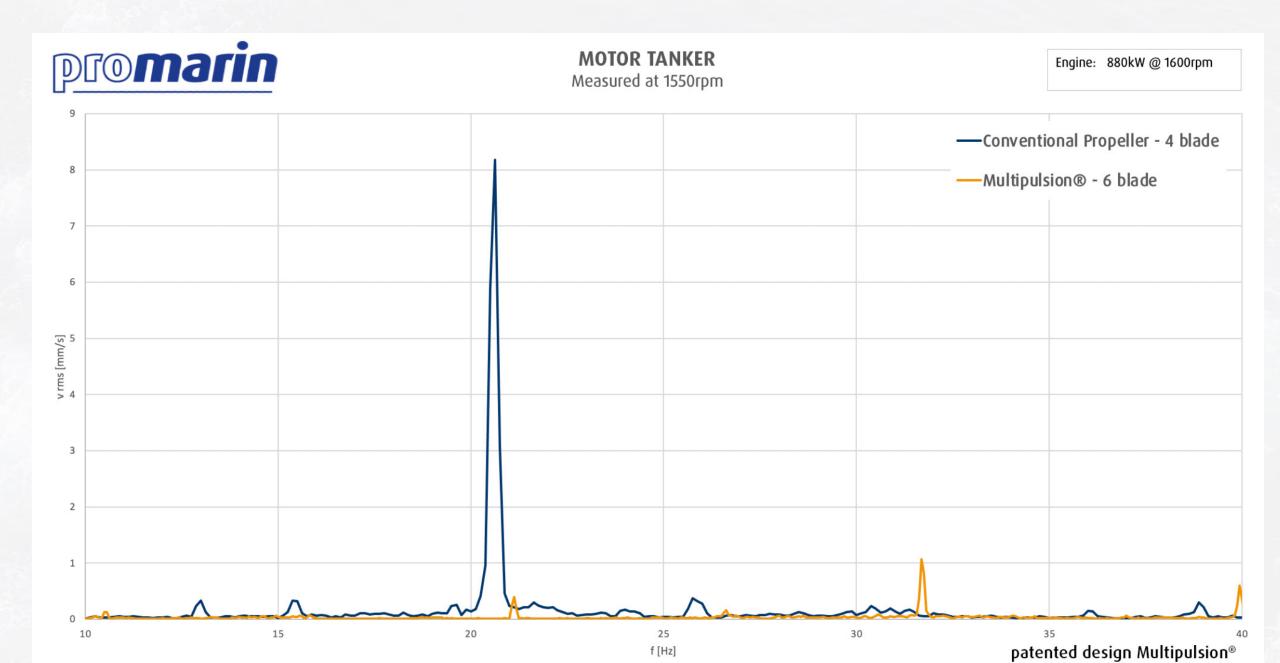

PUSHBOAT

Measured at 1400rpm upstream at Binger-Loch

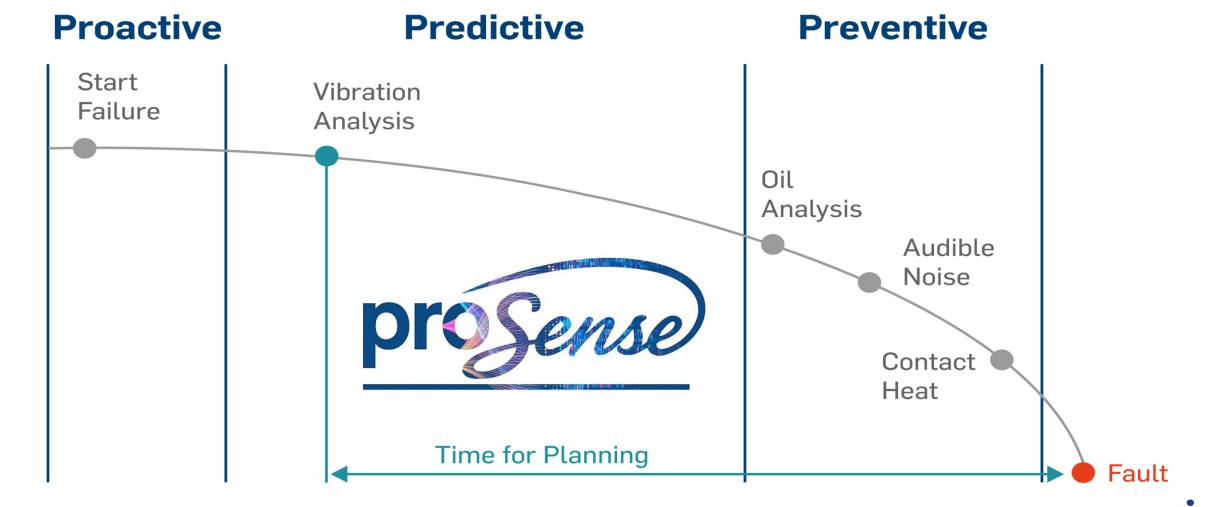

Engine: 940kW @ 1600rpm

Ratio: 4,294:1

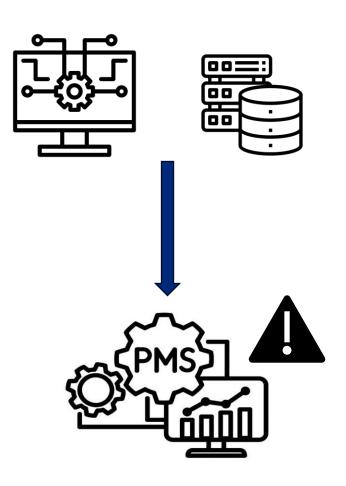

Predictive Maintenance

Predictive Maintenance

Vibration data analysis using advanced algorithms enables the identification of mechanical issues at their earliest stage, including:

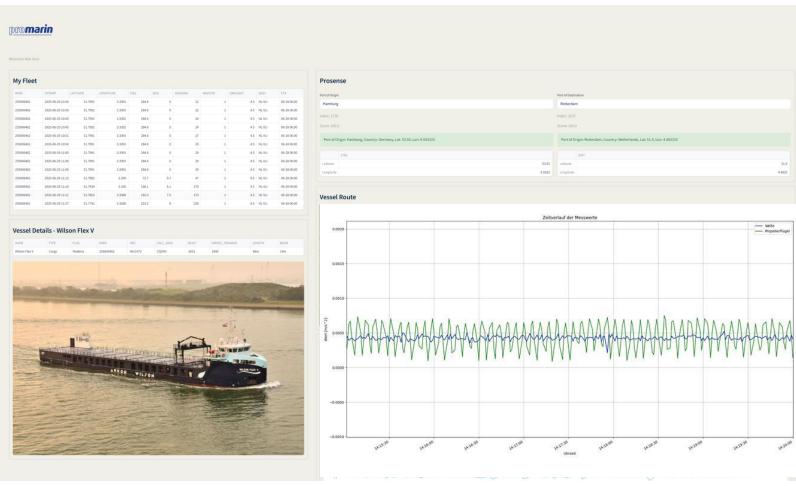

- Imbalance and bearing defects
- Misalignment errors
- Propeller and gearbox damage
- Clutch problems

Predictive Maintenance – Vibration Measurement
